

HOW WE HELP

Every good body builder has a spotter, every good athlete has a coach, and every good company has a customer retention department to ensure repeat sales.

We're a Christian Company that literally resurrects your dead leads. You send us your bookings and our girls, who all have exotic accents, make the calls and are so nice to the customers they don't want to hang up! We confirm their reservation to make sure they don't have any unanswered questions and we give them free gifts like Beach Guides and Restaurant Guides. We either confirm the reservation if they haven't done it yet, or ask them how they enjoyed it if they already did it, then kindly ask them what they envision their vacation looking like while they are in Hawaii, then proceed to make it a reality for them. We get to know them and have special recommendations based on their demographic (couples, families, etc...)

But that's not all!

We get their birthday's and send them a special birthday card from YOUR company to ensure they choose you again when they come back to Hawaii!

You focus on marketing and promotion, and we'll focus on making sure your hard earned customers come back again and again.

Starting tomorrow,
I want you to forward your bookings and leads to savior@angelconcierge.org and enjoy the sudden spike in your bottom line.

Sincerely,

Eric Hans Schaefer
